The Details - Chicken Coop Plans

To establish the kind of coop you need, there are some things that you should think about, including:

- How many birds you hope to keep in the coop.
- Whether you would like a connected chicken run or room to expand.
- How to protect your chickens from potential predators.
- The kind of weather that your chickens' house will have to withstand.
- The location of your chicken coop.
- Whether you require a permanent structure or a portable coop.
- The types of material that you can afford.
- Your DIY skills.

Obviously, there is no point taking on a job that is too complicated for you to complete or one that will overstretch your budget. Therefore, if you're planning to build your first coop, it is best to keep things relatively simple. That said, it is important to ensure that your birds get all they need for health and well-being.

Chicken Coop Plans - Summary

It is always wise to bear in mind that a chicken's egg production will be dramatically affected by her living environment. A chicken's needs are simple, but if you are new to chicken ownership you should consider:

- Good ventilation for your chicken coop.
- Ensure that the birds have plenty of natural light and whenever possible access to a chicken run.
- A coop that is warm, comfortable and dry.

Basically, if these requirements are met, your chickens will be content and healthy. So, finding a good coop, among the thousands available, which is easy to construct and hard wearing, need not be hard.

If you know what your birds need and what is suitable for your location or circumstances, you are bound to find some chicken coop plans that are perfect.
